

BOATWATCH

App User Guide

POWERED BY  **QuikTrak**
SECURING PEACE OF MIND

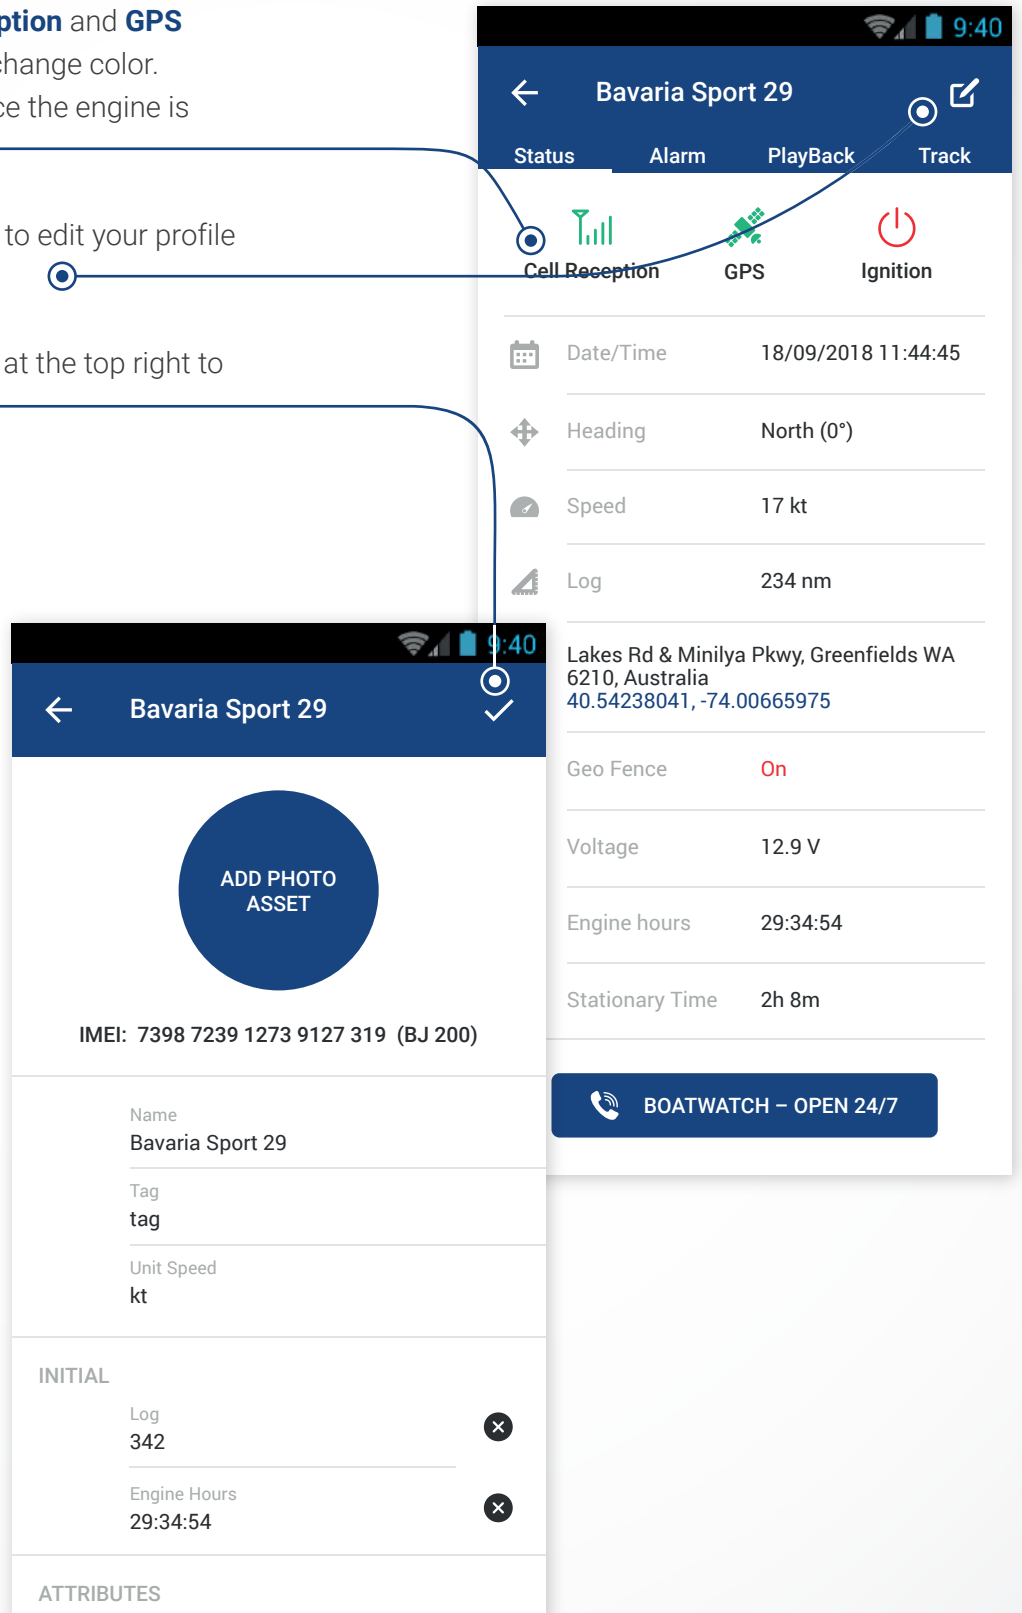

— BoatWath App User Guide —

— The Status Page —

You should have green **Cell Reception** and **GPS connection**. If not, the icons will change color.
The ignition will turn to **Green** once the engine is running.

Click the **Edit** icon at the top right to edit your profile and add a photo of your boat.

Don't forget to click the **Tick icon** at the top right to save all your changes.

— The Alarm Page —

Select the alarms that you want to go live and that apply to your boat. 

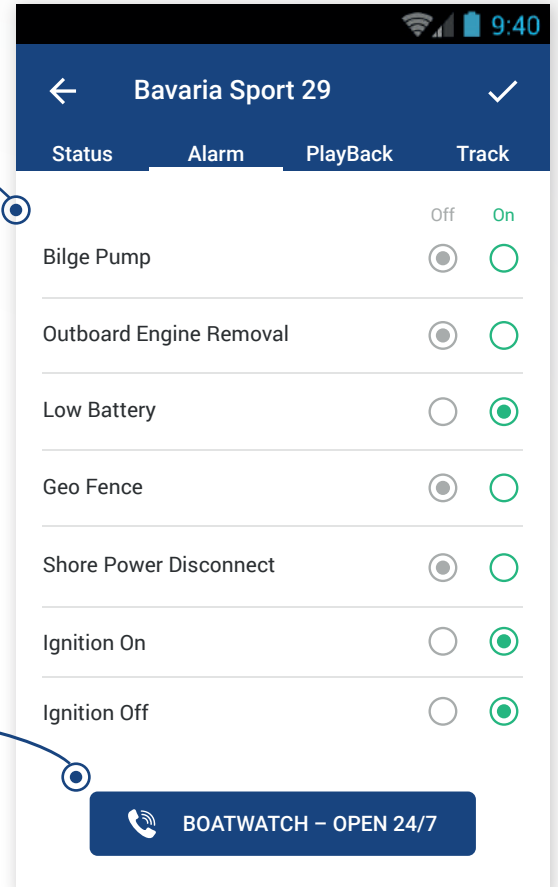

Don't forget to click the **Tick icon** at the top right to save all your changes. 

The **bilge pump** alarm is set to trigger after 20 seconds of continual use.

The **low battery** alarm will trigger when voltage drops to 11.9V.

All alarms are sent to the Boat Fix 24/7 Control Center and simultaneously to your phone.

The 24/7 Boat Fix Control Center can be reached anytime by clicking on the call button. 

— The Track Page —

Tap the **three layered squares** icon at the top right for different viewing options. Satellite view is set as a default. 

To set the Geo Fence, simply tap the **"On" button** at the bottom of the page. 

You will see the Geo Fence set in a red shaded circle. The Geo Fence radius is set at 100 yards around the location of your boat.

To turn off the Geo Fence, tap the Geo Fence Set **"Off" button**. 

— The Playback Page —

Select the date and time range that you want to playback the recording of your GPS tracking. 

It is set as the last 24 hours as a default, but you can search back.

The date range cannot exceed 7 days at a time.

Don't forget to click the **Tick icon** at the top right to save all your changes.
